mid atlantic gardener s handbook offers information on annuals perennials edibles and more for passionate gardeners living in the mid atlantic region with monthly tips and critical when to do it information this is a must read

welcome to the things you should know about series where we will take a look at the things that i believe everyone should know about a certain subject the sun is the centre of our solar system and the source of all the fuel needed for life on earth so join us as we take a closer look at the sun

where does all the time go despite the burgeoning army of machines designed to save us time from cars and aeroplanes to dishwashers and microwaves we don't seem to have any more of it on our hands we simply fill the space we clear with more things to do consuming more spending more and then look around for new ways of saving time and so we spiral onwards upwards ever faster being busy has become a habit and a habit that gives us high status busy people are important people the business of business is busy ness we are moving from a world in which the big eats the small to a world where the fast eats the slow but the fallout from a society hooked on speed is everywhere it's affecting our health 60 per cent of the adult population in the uk report that they suffer from stress and more than half of these say that this has worsened over the last 12 months it's affecting our family life with a quarter of british families sharing a meal together only once a month and it affects our environment too air travel is a major source of carbon dioxide emissions accelerating climate change as we speed around the world and the faster we live the faster we consume the faster we waste energy and the faster we pollute the planet the faster we seem to be running out of time is there something fundamentally wrong with the structure and values of this high speed society what are we running from and what are we running towards sustainable development is all about time it's about trying to safeguard the health of the planet and the people it supports indefinitely unconstrained by time the idea of time offers a novel perspective on what sustainable development is all about looking at issues affecting society and the environment through the prism of time conveys the urgency of the challenge and leads us to solutions we might not have thought of before about time edited by the think tank forum for the future brings together ten of the world's leading thinkers and writers including will hutton baroness mary warnock sir martin rees ghilleen prance jay griffiths the author of the bestselling pip pip and jonathon porritt from disciplines including biology business sociology ethnography astronomy philosophy politics history and sustainability in a collection of intriguing essays exploring the issue of time and how it relates to the environment economy and society the first half of this collection looks at different dimensions of time from the history of time as a social phenomenon and cultural notions of time to cosmological time and the difference between human and machine time these think pieces are followed by a series of more practical

solutions oriented contributions looking at how we deal with time in different contexts from the slow food movement and time banks to long term thinking in politics and what we can individually do to cope with the speed society contributions are liberally interspersed with boxes and brief pieces offering bite sized facts figures and insights relating to time and our everyday lives about time is a high profile collection aimed at creating debate about where the values of our contemporary society are taking us it will foster reflective thinking about different aspects of time using the concept of time to communicate and illuminate the idea of sustainable development and question our idolatry of speed in doing so it aims to inspire and help decision makers in business government and elsewhere to appreciate the challenges of sustainable development and inspire individuals to create change in their own lives for readers of no logo and longitude this book provides a thought provoking twist bringing together time and sustainability in a refreshing provocative and accessible way

here are two more stories about earths future one is in the near future and the other as far in the future as earth can get the boson experiment was the brainchild of abby mcgovern who was trying to create an artificial black hole her world was turned upside down when she met someone who was her direct opposite a ghost hunter the two never imagined that they would both eventually be chasing the same thing in earths end the earth is about to be swallowed up by the now expanding sun only three religions still survived and science was one of them the two religions christianity and islam accepted that this was the end of the human race and readied themselves to meet their makers science instead proposed leaving earth and traveling to a distant planet as the last hope for humanity just how will they survive the journey for so many years will the human race live long enough to reach this new world

there are millions of animals that call the ocean home some of these animals are in danger learn about marine animals that are at risk of becoming endangered and what people and activists like jacques cousteau have done to help readers will learn about the causes of endangered animals including pollution and overfishing and learn steps they can do to help the conservation and preservation of these beautiful animals and sea life through vibrant images informational text stunning facts a glossary of terms and a list of additional resources readers are sure to be engaged and inspired to help these animals in any way they can this 6 pack includes six copies of this title and a lesson plan

named one of new york times top 20 cookbooks of 2006 have you ever wanted to host a

full evening of indian food culture and music how about preparing a traditional balinese banquet or take a trip to cairo and enjoy an egyptian feast the ethnomusicologists cookbook takes you around the world on a culinary journey that is also a cultural and social odyssey many cookbooks offer a snapshot of individual recipes from different parts of the world but do nothing to tell the reader how different foods are presented together or how to relate these foods to other cultural practices for years ethnomusicologists have visited the four corners of the earth to collect the music and culture of native peoples from africa to the azores from zanzibar to new zealand along the way they ve observed how music is an integral part of social interaction particularly when it s time for a lavish banquet or celebration foodways and cultural expression are not separate this book emphasizes this connection through offering over thirty five complete meals from appetizers to entrees to side dishes to desserts and drinks a list of recommended cds fills out the culinary experience along with hints on how to present each dish and to organize the overall meal the ethnomusicologists cookbook combines scholarship with a unique and fun approach to the study of the world s foods musics and cultures more than just a cookbook it is an excellent companion for anyone embarking on a cultural culinary journey

in 2016 americans fed up with the political process vented that frustration with their votes republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade democrats nearly selected a self described socialist who ran on a populist platform against the influence of big money in politics while it is not surprising that americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don t have to pin our hopes for greater participation on any one candidate all of us have a say if we learn master and practice the skills of effective citizenship one of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday americans can t fight city hall that perception is undoubtedly why a 2015 pew charitable trusts survey found that 74 percent of those americans surveyed believed that most elected officials didn t care what people like them thought graham and hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles they describe effective citizenship skills and provide tips from civic experts even more importantly they offer numerous examples of everyday americans who have used their skills to make democracy respond the reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena

of democracy by the end of the book you will have new confidence that citizen participation is the lifeblood of america and will be ready to make governments work for you not the other way around

despite its importance to how humans inhabit their environments walking has rarely received the attention of ethnographers ways of walking combines discussions of embodiment place and materiality to address this significant and largely ignored technique of the body this book presents studies of walking in a range of regional and cultural contexts exploring the diversity of walking behaviours and the variety of meanings these can embody as an original collection of ethnographic work that is both coherent in design and imaginative in scope this primarily anthropological book includes contributions from geographers sociologists and specialists in education and architecture offering insights into human movement landscape and social life with its interdisciplinary nature and truly international appeal ways of walking will be of interest to scholars across a range of social sciences as well as to policy makers on both local and national levels

when john furlong and his family emigrated from ireland in 1974 the customs officer greeted them with welcome to canada make us better an imperative that has defined furlong s life ever since a passionate athlete with a track record of community service he was roped into acting as spokesperson for vancouver s incipient olympic bid movement back in 1996 and then spent the next fourteen years living and breathing the olympics furlong and his organizing team including some 25 000 volunteers orchestrated a remarkable winter games patriot hearts is the story of how they did it

in the laws of the knowledge workplace dr jemielniak has collected research based chapters providing deep interdisciplinary insight into knowledge professions addressing issues of professional identity emotion power and authority trust and indoctrination and management behaviour the accounts and studies in this book come from management organization studies sociology and anthropology of work perspectives and are fully international in scope they highlight the scale of the serious changes in occupational roles and to the meaning of work that is taking place in knowledge intensive environments and give a pointer to what might constitute good and bad management practice in knowledge intensive companies
